

Integrated Management System Policy

The purpose of the ROSINSKI PACKAGING company is to design, manufacture and sell packaging and other plastic products that constitute the scope of the IMS. Being aware of the location of the facility in the landscape of the Silesian Beskids and the Warsaw Basin, as well as the possible impact on the surroundings, our activities are aimed at limiting the negative factors that have a particular impact on its condition.

We want to achieve the above goals through:

- constant cooperation and communication with suppliers and customers, leading to the recognition of their needs,
- constant cooperation and communication with local authorities,
- acceptable quality of production,
- safety of technological processes,
- acting in accordance with the Principles of Good Manufacturing and Hygiene Practices,
- ensuring employee safety and appropriate work environment,
- continuous employee training,
- continuous improvement and pollution prevention,
- efficiently operating quality, environmental and food safety management system,
- rational consumption of raw materials,
- the use of post-consumer recycled materials (PCR) in the production process,
- reducing the amount of waste generated,
- minimizing the use of substances harmful to the environment,
- reduction of carbon footprint,
- full compliance with legal requirements and other requirements with regard to the existing environmental aspects, quality criteria and food safety rules,
- continuous analysis of factors that may affect the organization's ability to achieve the intended results,
- management approach based on ongoing risk analysis.

The Integrated Management System Policy provides guidelines for setting quality, environmental and food safety objectives and tasks.

All employees working for or on behalf of the company are familiar with the policy. The policy is made public to all other interested parties on an ongoing basis.

We want our company to be perceived as a trustworthy, flexible and stable supplier of high-quality packaging and other plastic products.

Bielsko-Biała, 30 March 2021 r.

Michał Rosiński
Chairman of the Board
